PROFESSIONAL SUMMARY

Senior .NET engineer with 6+ years of experience building enterprise and healthcare systems. Most recently Associate Technical Lead for Bridge, a multi-tenant population health and value-based care platform, with hands-on work in remote patient monitoring, eCQM/HEDIS reporting, Transitional Care Management and HIPAA-compliant APIs. Strong in microservices, RESTful APIs and cloud delivery on Azure and AWS; experienced mentoring engineers.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET 8/9/10, .NET Core, ASP.NET Core Web API, ASP.NET MVC, SQL, React JS, JavaScript (ES6+), TypeScript, HTML5/CSS3, Tailwind CSS

Architecture & Cloud: Microservices, Event-Driven Architecture, Kafka, RESTful APIs, Azure App Services, Azure Blob Storage, AWS S3, Docker, Nginx, Jenkins, GitHub Actions, Azure DevOps

Data: SQL Server, PostgreSQL, Redis, Entity Framework Core, Dapper

Healthcare: eCQM/HEDIS, Transitional Care Management (TCM), HIPAA, RPM, EHR/EMR integration

PROFESSIONAL EXPERIENCE

Garage Platform India Pvt Ltd | Bengaluru, India

Associate Technical Lead | Feb 2024 – May 2025

- Led technical architecture and engineering delivery for Bridge, a multi-tenant population health and value-based care platform.
- Architected SYNC remote patient monitoring microservices (.NET Core, Azure, SQL Server) for real-time medical device readings.
- Supported eCQM reporting; optimized HEDIS care-gap pipelines with EF Core and Redis, reducing API latency by 35%.

Senior Software Engineer | Jun 2023 – Feb 2024

- Built RESTful APIs for Transitional Care Management, DeRisk and Scorecards, including HEDIS/eCQM workflows.
- Implemented Azure DevOps and Jenkins CI/CD pipelines, reducing deployment time by 40%.
- Mentored 6+ engineers on microservice design patterns, SOLID principles and clean-code practices.

Software Product Engineer | Feb 2022 – Jun 2023

- Developed .NET Core Web APIs and optimized SQL schemas for early-stage SYNC patient messaging services.

Softtrends Software Pvt. Ltd. | Bengaluru, India

Junior Programmer | Jul 2020 – Feb 2022

- Built DeDup, a Heroku Marketplace add-on, using C#/.NET SDK utilities and PostgreSQL for exact and fuzzy data deduplication.
- Developed cloud data management tools for AWS S3 and Azure Blob Storage, automating bucket creation, folder management and large-scale file operations; contributed PostgreSQL–Amazon Redshift pipelines integrated with Salesforce CDP.

Associate Programmer / Trainee | Dec 2018 – Jun 2020

- Modernized doctor/patient portals as React PWAs with Service Workers and offline sync; built ASP.NET MVC endpoints and optimized SQL stored procedures.

INDEPENDENT PROJECTS | JUN 2025 – PRESENT

- **VeilGate** (GitHub, demo video): multi-tenant gateway that masks PHI before text reaches a language model. .NET 10 API and React console on PostgreSQL with row-level security, a Kafka event pipeline, MFA and a hash-chained audit log, with CI including dependency and secret scanning. Ran my own penetration tests and fixed the five flaws they found, each with a regression test. Synthetic data only; not deployed.
- **JobTracker** (GitHub): full-stack job application tracker, completed and deployed: ASP.NET Core API (JobTrackerApi) and JavaScript UI (JobTrackerUi).
- **Personal portfolio** (site, GitHub): React and Vite site with Tailwind CSS, deployed on Netlify.

AWARDS AND ACHIEVEMENTS

- **Best Coordinator** — The Garage India.

- **Out-of-the-Box Thinker** — recognized at The Garage India.
- **HIPAA Compliance Certification** — earned annually through company-administered examinations.

EDUCATION

Dr. Ambedkar Institute of Technology, Bangalore — **B.E., Computer Science** | 2018

B.V.V.S. Polytechnic, Bagalkot — **Diploma, Computer Science and Engineering** | 2015
